

What is the Catholic Dialogue Schools Project?

The Catholic Dialogue Schools Project is a collaborative research project with the Catholic University of Leuven to assist schools to understand how their Catholic identity is expressed in work and practice. It aims to then support schools as they nurture their Catholic identity into the future in a way that is meaningful to all in their community.

Completing the Enhancing Catholic Identity Project Surveys – Parents

Thank you very much for making time to participate in the Enhancing Catholic School Identity project. The purpose of this survey research is to gain meaningful insights into how your son or daughter's school views its Catholic identity today and how such identity might be shaped for tomorrow.

Everyone's input is important.

Your participation should take about **55 minutes**. It's best to finish the survey in one shot, without having to come back later.

Your responses are anonymous and your personal data is treated confidentially in accordance with ethical and legal guidelines. Only you will be able to view your individual results and this can be done once you've completed the questionnaires.

The survey period is open **from Friday 5 March 2021 until Friday 23 April 2021**.

Keep these best practices in mind:

- ✓ **Answer spontaneously and don't over analyse.** Your input is more valuable if you respond with the first thought that comes to mind. Plus, you'll proceed faster.
- ✓ **Choose the response that honestly matches your opinion.** Don't hesitate to select "strongly agree" or "strongly disagree" if that's in fact how you feel.
- ✓ **Respond as best you can to each question as it is worded.** You may feel that some questions don't fully apply to your school environment. That's OK; just respond as best you can.

It's also helpful to keep in mind:

- ✓ Many questions ask you for two perspectives:
 - "My school" as you actually see things today
 - "My ideal school" as you would like to see things in the best future scenario
- ✓ **Some questions might seem repetitive; but they're actually not.** There's a scientific purpose behind the ways in which the questions are formulated. Every question counts.
- ✓ **Trust that the survey as a whole will accurately capture your personal point of view.** Even if you struggle to respond to some individual questions, it's important to complete the entire survey. Your opinion matters!
