WHAT IS IT? The program aims to ensure Year 12 Indigenous students are engaged in either further learning or employment post high school.

The program provides support and mentoring for participants during year 12 and continues after they finish school. We are making a commitment to help make your child’s transition from school to the next stage of their life as smooth as possible.

WHAT DOES A PARTICIPANT RECEIVE? Participants receive support in a range of ways including:

- Ongoing mentoring and support
- Regional player workshops - delivered by current and/or newly retired NRL players and guest speakers
- Face to face meetings with their case manager
- Regular contact (phone, email and Facebook)
- Updates on Facebook
- School visits
- Work experience opportunities
- Employment opportunities
- Invitations to employer/further education events
- The program continues for 6 months after the participant begins their post school career path

HOW DO I GET INVOLVED? Contact your school or contact Titans 4 Tomorrow at the phone number below.

My experience with Titans 4 Tomorrow has been both inspiring and confidence building. Attending workshops with high profile Indigenous role models and ambassadors such as Jessica Mauboy and Joel Parkinson has inspired me as to the heights I can achieve as a young Indigenous person.

Through the support and advice provided at workshops by mentors I feel that I am able to achieve any goals that I set for myself on a personal or career level. I have the confidence that any help or motivation that I may need along the way will be provided by people that care for my future.

Keeley Perandis
Tweed River High School

There will be numerous events throughout the year you will be invited to attend. We will also send you monthly newsletters and keep in contact.
