

Jonathan Dethan

Music has always been a passion of mine.

I started off my musical journey playing piano when I was 6, then moving to guitar when I was 10 and I have loved it ever since.

I graduated high school in 2016, going on to study Songwriting & Music Production at College as well as Music at University. I have been a part of numerous bands, busked and played at both parties and weddings over the years. I have been teaching since 2020 across different schools on the coast while also playing live music most weekends.

Growing up I was blessed with access to all common rock/pop instruments, learning them along the way as well as receiving vocal tuition. This range of playing ability across the common rock/pop instruments has allowed me to develop a holistic musical learning experience for my students as I have been able to better equip my students for bands and social playing which is a huge part of a child's musical development.

My goal for all my students is to instill a passion and love for music while developing skills that will allow each student to reach their goals and live a life of self and continual learning. This is all done in a fun, warm and lighthearted environment that allows students to feel safe to express and be themselves through music.

GUITAR

- *Rock*
- *Blues*
- *Folk*
- *Pop*
- *Country*
